Houston, TX 75202

RE: Remediate the Waste Pits Now!

Dear Mr. Miller,

Please consider the residents of East Harris County as you and your colleagues make your decision about remediating the San Jacinto River Waste Pits. The EPA has delayed their decision for far too long, and our health must be a priority for you.

It is imperative to place a permanent armored enclosure over the caps, as supported by the Army Corps of Engineers as the quickest and safest permanent solution for the waste pits Superfund site.

(b) (6)

Sincerely,

(Address)

Baytown, 77520
(City, Zip)
